The Director

GACarver, Jr.

Attached is Vientiane's answer to the

25X1

that I drafted after our brief session on Thursday, 10 February. I forward it for your information. Vientiane seems to be well aware of the problems and to have matters as well in hand as possible. As you will note from paragraph 3, Vientiane would like to proceed with the project -- but that, of course, is a matter that must await your determination.
